## DETAILED ACTION

### *Election/Restrictions*

1. Restriction to one of the following inventions is required under 35 U.S.C. 121:
  - I. Claims 1-7, drawn to leggings, classified in class 2, subclass 22.
  - II. Claims 8-15, drawn to a helmet, classified in class 2, subclass 410.
  - III. Claims 16-21, drawn to a vest, classified in class 441, subclass 102.
  - IV. Claims 22-24, drawn to sunglasses, classified in class 351, subclass 44.

The inventions are distinct, each from the other because of the following reasons:

2. Inventions I,II,III, and IV are unrelated. Inventions are unrelated if it can be shown that they are not disclosed as capable of use together and they have different modes of operation, different functions, or different effects (MPEP § 806.04, MPEP § 808.01). In the instant case the different inventions The leggings of Group I, the helmet of Group II. The vest of Group III, and the glasses of Group IV can be used independently of each other.
3. Because these inventions are distinct for the reasons given above and have acquired a separate status in the art as shown by their different classification, restriction for examination purposes as indicated is proper.
4. A telephone call was not made to request an oral election to the above restriction requirement because applicants did not provide a phone number.

Applicant is advised that the reply to this requirement to be complete must include an election of the invention to be examined even though the requirement be traversed (37 CFR 1.143).

Art Unit: 3617

5. Applicant is reminded that upon the cancellation of claims to a non-elected invention, the inventorship must be amended in compliance with 37 CFR 1.48(b) if one or more of the currently named inventors is no longer an inventor of at least one claim remaining in the application. Any amendment of inventorship must be accompanied by a request under 37 CFR 1.48(b) and by the fee required under 37 CFR 1.17(i).
